

Press release on supplementing the funds allocated to the Justice program - Norwegian Financial Mechanism 2014-2021

The Ministry of Justice (MoJ) has successfully accessed the performance reserve of the Norwegian Financial Mechanism 2014-2021. As a result, the "JUSTICE" program envelope increased with 3,700,000 Euro (grant), resulting a total financial allocation of 48,700,000 euros.

The additional funds will be used by the Ministry of Justice, as a Program Operator, to fund three new predefined projects in the following areas of intervention: correctional services, good governance and combating domestic violence and gender-based violence.

The new projects will contribute to achieving the objectives provided by Government strategies (National Anticorruption Strategy 2016-2020, National Strategy for the Reintegration of persons deprived of liberty 2020 - 2024) and the Norwegian Financial Mechanism (reducing economic and social disparities in the European Economic Area and strengthening bilateral relations between Norway and Romania).
